About NLC Services

NLC Logistics Services carry out the largest cargo operations in the country by employing multiple modes of transportation to provide end-to-end solutions to its valued clients. The elaborate infrastructure, extensive footprint and fleet of modern vehicles complemented by a trained and experienced workforce accords NLC the exclusive ability to transport variety of cargo to over 100 destinations across Pakistan. Logistics Services comprise Road Freight, NLC Express Freight Train (NEFT), Marine & Air Services, Dry Ports and Logistics Parks.

NLC Logistics Services is the only organisation in the country that has a modern and diversified fleet, fully compliant with the standards of Oil and Gas Regulatory Authority (OGRA) and National Highway Authority (NHA), Crude Oil Sale Agreement (COSA) and Health, Safety & Environment (HSE) in dry and liquid cargo transportation.

Dry Cargo

NLC runs Pakistan's largest dry cargo operations from ports in the South to locations as far as Gilgit-Baltistan in the North. NLC has a diversified fleet of flatbed, half body and high-wall trailers for dry bulk shipping safely and swiftly to industrial units and consumers. The freight operations are being conducted 24/7 to meet the deadline of clients well in time. All cargo operations are managed/tracked through an indigenous but contemporary Freight Management System integrated with real-time tracking and ERP. NLC is considered to be the trendsetter in freight services in Pakistan.

Liquid Cargo

NLC maintains the largest OGRA compliant fleet to ensure public safety and environmental protection while transporting petroleum products for long distances. NLC lifts more than 55% of Pakistan's total crude oil production from far-flung oil fields to various refineries. The portfolio also extends to other businesses of liquid cargo transportation like white oil, furnace oil and edible oil, LPG and LNG etc.

TIR Services

Since September 2021, NLC has emerged as a key player in regional land route connectivity, facilitating the linkage of markets with Turkiye, Azerbaijan, Kazakhstan, Uzbekistan and China. Utilizing multiple routes that extend through Afghanistan, Iran, and China, NLC empowers exporters and importers to access untapped markets, effectively serving as a bridge between buyers and sellers through seamless and hassle-free shipments.

NLC offers efficient and direct movement of shipping line containers from Karachi ports to the Central Asian Republics. By providing cargo cross-stuffing and cross-docking services at Karachi ports, NLC ensures its clients are spared from detention charges and demurrages, thus enhancing cost-effectiveness and reliability.

The one-window solution offered by NLC ensures a smooth journey for cargo from its inception to its final destination, streamlining the entire logistical process and minimizing procedural delays. Through this comprehensive approach, NLC serves as a key facilitator in regional trade, enabling businesses to explore new avenues and diversify markets for their clients.

NLC Express Freight Train

NEFT has enabled NLC to present itself as a multimodal solutions provider thus enhancing its supply chain capacity. We also offer rail freight services to our clients in collaboration with Pakistan Railways, independently, or as part of end-to-end logistics solutions.

Dry Ports

The dry ports being managed by NLC facilitate traders and businessmen to have greater accessibility and penetration into hinterland markets. State-of-the-art infrastructure has been made available to ensure the speedy handling of inbound and outbound cargo. Traders engaged in international freight shipping and regional export/import business prefer handling of their cargo at NLC dry ports for trans-shipment due to clearance services closer to business hubs. NLC offers dry port facilities at Sost (near Khunjerab); at Thokar Niaz Baig, and a Multimodal Transit Hub at Jia Bagga in Lahore; and also in Quetta, Hyderabad and Karachi.

Marine & Air Services

Adding the sea & air freight dimensions to the NLC portfolio, MAS provides comprehensive end-to-end logistics solutions. Through its established links with international principals/agents, MAS offers its services to a national business community that include international air & sea freight, trucking services, air & sea chartering, stevedoring, custom brokerage, multimodal cargo solutions & project cargo management. MAS has created a reasonable space in the realm of air and sea transportation in a short span of time.

Logistics Parks

NLC is in the process of establishing a state-of-the-art logistics park on the Karachi Northern Bypass. Spread over an area of 40 acres, the logistics park will be equipped with the latest facilities including multipurpose warehouses, container yard, LNG terminal, utilities, commercial petrol pumps and office accommodation. The logistics park will connect businesses with national highways, ports and airports and will prove to be a major catalyst in ensuring ease of doing business. NLC is also planning to set up such kind of facilities at Lahore, Rawalpindi and Faisalabad in the future.
